

Lucifer's Child were formed in Athens, Greece during 2013 by George Emmanuel (ex Rotting Christ) and Stathis Ridis (ex Nightfall). The first full length album of the band, entitled "The Wiccan" was released during 2015 via Dark Essence Records. Throughout this release, the band managed to make the first steps by presenting their material in several festivals (Inferno-Nor, Blastfest-Nor, Metalgate Deathfest-Cz, Incineration-UK etc) and club shows around Europe. For the next 4 years the band kept on touring, building new audiences and establishing a strong base for the second's full length album release. The second album, entitled "The Order" was recorded during 2017 and released by Agonia Records during 2018. "The Order" managed to earn great feedback and opened the road for the band to perform on bigger festival stages (Hellfest-FR, Setembro Negro-BR etc) and tour across Europe and Latin America. During 2022 LC released their first split EP along with Mystifier(BR) which also received great reviews from fans and press. Nowadays the band is preparing to enter the studio in order to record their third full length album which is going to be released late 2024-early 2025 via Agonia records. During late 2024 Lucifer's Child will return back to Latin America and already making plans for appearances across the European festivals and clubs.
